Walk in Community ECG Service at Surbiton & Raynes Park Health Centre

Following the successful pilot of the Community ECG Service based at Raynes Park Health Centre, we are now extending this service to all the surgeries in the Merton area, and creating a community ECG service in Surbiton.

<table>
<thead>
<tr>
<th>LOCATION</th>
<th>DAY</th>
<th>FREQUENCY</th>
<th>SUB SPECIALTY</th>
<th>REQUEST METHOD</th>
</tr>
</thead>
<tbody>
<tr>
<td>First Floor, Surbiton Health Centre</td>
<td>Mon, Wed, Thurs, Friday 9am-12pm</td>
<td>Daily</td>
<td>Cardiology</td>
<td>MDI Cloud</td>
</tr>
<tr>
<td>Ground Floor, Raynes Park Health Centre</td>
<td>Mon – Thurs 1.30-4.00pm Fri 1.30-3.00pm</td>
<td>Daily</td>
<td>Cardiology</td>
<td>MDI Cloud</td>
</tr>
</tbody>
</table>

The GP will request the ECG through MDI Cloud (web based system). Following the ECG, the physiologist receives a verbal report from MDI Cloud within 10 minutes which will allow them to:

- Discharge the patient
- Refer to the patient to their GP (the results are sent to the GP through MDI Cloud to a nominated email address within 24 hours)
- Take emergency action if required i.e. refer to A&E,

Please [click here](#) for the service pathway.

**Next Steps**

This service is very simple to set up in your surgery and access to MDI Cloud is quick and easy to arrange. A nominated GP for each surgery is required to act as a point of contact for the project.

If you would like to offer this service to your patients or require further details, please contact Bal Chohan on Balvinder.chohan-rai@kingstonhospital.nhs.uk or call: 020 8934 2957.
