## Your feedback

“ My elderly father spent the last three weeks of his life in Blyth Ward and I am full of admiration for the high level of care he received from the staff. He was treated with respect and humanity and, as his family, we were treated with great kindness, kept informed of his condition and allowed to spend as much time with him as possible. ”

## Achievements

92% of our staff feel their role makes a difference to patients and service users.

## Yum!

Toast and cake are back on the menu for patients with introduction of new patient food.
