

# August

## Good news

We started work on transforming our Emergency Department, which will soon be home to a new Urgent Care Centre and extended Majors and Resuscitation areas. Jim Mackey, Chief Executive of NHS Improvement visited the Trust to see how work was coming along.

## Your feedback

“All X-ray staff were so lovely, looked after me so well and everything was well explained. The nurses and doctors made it as pleasant as possible and I enjoyed quite a laugh with them. Great job Kingston hospital X-ray staff!”

## Monthly staff award winner

Carly Trigg,  
Receptionist  
Pre-assessment

## How we're doing

The Clinical Research Network revealed that we increased the number of clinical research studies we had open in 2016/17 by 75% - the highest increase in the country.

## Getting fit

Our staff have embraced getting fitter with the Virgin Pulse Global Challenge, ranking Kingston Hospital 5th out of the 29 NHS organisations taking part.
