

# Pets As Therapy

Our new Pets As Therapy dog Daisy visited patients on our children's and elderly care wards to brighten up their day.

## Monthly staff award winner

Lisa Briggs,  
Staff Day  
Nursery Manager  
*Value Each Other*

## Good news

Our Critical Care Team are running a new multidisciplinary rehabilitation clinic for our Intensive Care patients. This allows them to see a consultant, nurse, physiotherapist and psychologist in the same clinic.

## How we're doing

We achieved 98% on our hand hygiene audit this month.

## Your feedback

*To all the consultants, nurses, radiographers at the Sir William Rous Unit at Kingston Hospital yesterday. You were brilliant in your treatment and care. Warmth, compassion, calming and very efficient.*
