Responsible Staff Member: Gareth Hull AND Elisabeth Peregrine, maternity guideline group
 EIA Assessor/s: Maternity Guidelines Group
 Directorate: Specialist Services-Maternity Service Line

1. FIELD / SUBJECT

Function x Policy x Procedure / practice Service Strategy Document (if joint, state with whom)

Describe the main aim, objectives and intended outcomes of the above:

To provide guidance and set standards for local GPs on the accepted standard of normal antenatal care and provide an abridged version of Kingston Maternity Unit's DAU guideline that are relevant to GPs. This guidance will provide support to GPs who provide antenatal care to assist with identification of women who require additional input in their care and referral. The rationale for referral, safe timeframes for referral and method for referral will also be detailed

An initial screening should be undertaken first. This helps to identify whether there is a possibility that people might have different experiences of the function / policy / process / strategy compared to others.

This initial EIA simply assesses whether different groups of people who use a service are affected by the intended function / policy / practice / strategy more, less or in a different way than other groups of people. A differential impact occurs when a particular group has been affected differently by this in either a positive or negative/adverse way.

An assessment of whether there is a differential impact will be based on two factors – quantitative monitoring data and qualitative information, including the expert opinion from the EIA assessor who is normally the manager responsible for the delivery as well as someone with a different perspective. This would ideally be one or more service users or someone related to the service. There will be times when involving someone for their technical expertise or someone with specialist knowledge will be appropriate and EIA assessors should consider this. You must assess **each** of the 9 areas separately and consider how your document in section 1 may affect people's human rights.

2. ASSESSMENT OF POSSIBLE ADVERSE IMPACT AGAINST ANY MINORITY GROUP

| | Could the policy / service / function / other in section 1 have a significant negative impact on equality in relation to each area below? | Response | | If YES, please state why and the evidence used in your assessment |
