

INITIAL EQUALITY IMPACT ASSESSMENT (EIA) FORM

Name of policy / process / service / other	Close Patient Supervision Guideline	Date applicable	14/05/2021
--	--	-----------------	------------

Responsible Staff Member: Berenice Constable
 EIA Assessor/s: Maria Paterson
 Directorate: Adult Safeguarding

1. FIELD / SUBJECT

Function Policy Procedure / practice Service Strategy Document (if joint, state with whom)

Describe the main aim, objectives and intended outcomes of the above:
 The key purpose of assessment, observation and engagement is to provide the appropriate level of observation and support for a period when patients are at risk of harm to themselves and/or others.
 This guideline is to ensure that staff are aware of their own responsibilities and the responsibility of the Trust in providing safe and supportive observation.
 This guideline is to support the decision making process in relation to the request for 1:1 close supervision.

An initial screening should be undertaken first. This helps to identify whether there is a possibility that people might have different experiences of the function/ policy / process/ strategy compared to others.

This initial EIA simply assesses whether different groups of people who use a service are affected by the intended function / policy/ practice / strategy more, less or in a different way than other groups of people. A differential impact occurs when a particular group has been affected differently by this in either a positive or negative/adverse way.

An assessment of whether there is a differential impact will be based on two factors – quantitative monitoring data and qualitative information, including the expert opinion from the EIA assessor who is normally the manager responsible for the delivery as well as someone with a different perspective. This would ideally be one or more service users or someone related to the service. There will be times when involving someone for their technical expertise or someone with specialist knowledge will be appropriate and EIA assessors should consider this. You must assess **each** of the 9 areas separately and consider how your document in section 1 may affect people's human rights.

2. ASSESSMENT OF POSSIBLE ADVERSE IMPACT AGAINST ANY MINORITY GROUP

	Could the policy / service / function / other in section 1 have a significant negative impact on equality in relation to each area below?	Response		If YES, please state why and the evidence used in your assessment
