

INITIAL EQUALITY IMPACT ASSESSMENT (EIA) FORM

Name of policy / process / service / other	Learning From Incidents, Claims and Complaints	Date applicable	June 2021- June 2023
Responsible Staff Member: Gina Brockwell EIA Assessor/s: Maternity Guideline Group Directorate: Specialist Services- Maternity Service Line			
1. FIELD / SUBJECT			
<input type="checkbox"/> Function x Policy x Procedure / practice <input type="checkbox"/> Service <input type="checkbox"/> Strategy <input type="checkbox"/> Document (if joint, state with whom)			
Describe the main aim, objectives and intended outcomes of the above: To ensure that all staff, including clinicians, midwives, nursing, support and administration staff understand the process for reporting and managing: Clinical and non-clinical risk within the Maternity Service Triggers for reporting incidents The management of incidents, claims and complaints			
An initial screening should be undertaken first. This helps to identify whether there is a possibility that people might have different experiences of the function/ policy / process/ strategy compared to others. This initial EIA simply assesses whether different groups of people who use a service are affected by the intended function / policy/ practice / strategy more, less or in a different way than other groups of people. A differential impact occurs when a particular group has been affected differently by this in either a positive or negative/adverse way. An assessment of whether there is a differential impact will be based on two factors – quantitative monitoring data and qualitative information, including the expert opinion from the EIA assessor who is normally the manager responsible for the delivery as well as someone with a different perspective. This would ideally be one or more service users or someone related to the service. There will be times when involving someone for their technical expertise or someone with specialist knowledge will be appropriate and EIA assessors should consider this. You must assess each of the 9 areas separately and consider how your document in section 1 may affect people's human rights.
