

# INITIAL EQUALITY IMPACT ASSESSMENT (EIA) FORM

Name of policy / process / service / other	<b>Neonatal Exchange Transfusion</b>	Date applicable	<b>02/21</b>
--	--------------------------------------	-----------------	--------------

Responsible Staff Member: Raquel Vidal-Blan  
 EIA Assessor/s: Andrea Beaton  
 Directorate: Neonatal

## 1. FIELD / SUBJECT

Function     
  Policy     
  Procedure / practice     
  Service     
  Strategy     
  Document (if joint, state with whom)

Describe the main aim, objectives and intended outcomes of the above:

- ✓ To be able to perform an exchange blood transfusion safely
- ✓ To facilitate, standardize and reduce the complications and side effects of the exchange blood transfusion procedure

An initial screening should be undertaken first. This helps to identify whether there is a possibility that people might have different experiences of the function/ policy / process/ strategy compared to others.

This initial EIA simply assesses whether different groups of people who use a service are affected by the intended function / policy/ practice / strategy more, less or in a different way than other groups of people. A differential impact occurs when a particular group has been affected differently by this in either a positive or negative/adverse way.

An assessment of whether there is a differential impact will be based on two factors – quantitative monitoring data and qualitative information, including the expert opinion from the EIA assessor who is normally the manager responsible for the delivery as well as someone with a different perspective. This would ideally be one or more service users or someone related to the service. There will be times when involving someone for their technical expertise or someone with specialist knowledge will be appropriate and EIA assessors should consider this. You must assess **each** of the 9 areas separately and consider how your document in section 1 may affect people’s human rights.

## 2. ASSESSMENT OF POSSIBLE ADVERSE IMPACT AGAINST ANY MINORITY GROUP

		Response		If YES, please state why and the evidence used in your assessment
		Yes	No	
1	<b>Age</b>		x	
2	<b>Sex</b> (Male and Female)		x
