1. FIELD / SUBJECT

Function
 Policy
 Procedure / practice
 Service
 Strategy
 Document (if joint, state with whom)

Describe the main aim, objectives and intended outcomes of the above:
 A new pathology has emerged as a consequence of the COVID-19 pandemic. It is crucial to establish a common pathway and unified management within our team and with our tertiary referral centre for this illness, Evelina Children Hospital.

An initial screening should be undertaken first. This helps to identify whether there is a possibility that people might have different experiences of the function/ policy / process/ strategy compared to others.

This initial EIA simply assesses whether different groups of people who use a service are affected by the intended function / policy/ practice / strategy more, less or in a different way than other groups of people. A differential impact occurs when a particular group has been affected differently by this in either a positive or negative/adverse way.

An assessment of whether there is a differential impact will be based on two factors – quantitative monitoring data and qualitative information, including the expert opinion from the EIA assessor who is normally the manager responsible for the delivery as well as someone with a different perspective. This would ideally be one or more service users or someone related to the service. There will be times when involving someone for their technical expertise or someone with specialist knowledge will be appropriate and EIA assessors should consider this. You must assess **each** of the 9 areas separately and consider how your document in section 1 may affect people's human rights.

2. ASSESSMENT OF POSSIBLE ADVERSE IMPACT AGAINST ANY MINORITY GROUP

	Could the policy / service / function / other in section 1 have a significant negative impact on equality in relation to each area below?	Response		If YES, please state why and the evidence used in your assessment

You need to ask yourself:

- | | | |
|---|-----|-----------|
| • Will the policy / practice / service create any problems or barriers to any community or group? | Yes | No |
| • Will any group be excluded because of this? | Yes | No |
| • Will there be a negative impact on community relations ? | Yes | No |

If the answer to any of these questions is YES, you must complete a **FULL** Equality Impact Assessment. Contact the Corporate Governance Administrator and refer to the EIA Policy on the intranet.

3. POSITIVE IMPACT

Could the policy / practice / service / other have a significant positive impact on equality by reducing inequalities that already exist? Explain how will it meet our duty to:		Response		If YES, please state why and the evidence used in your assessment
		Yes	No
