## 1. FIELD / SUBJECT

Function     Policy     Procedure / practice     Service     Strategy     Document (if joint, state with whom)

Describe the main aim, objectives and intended outcomes of the above:

This guidance aims to give guidance to ensure consistency in the performance and reporting of diagnostic Vestibular tests for adults

An initial screening should be undertaken first. This helps to identify whether there is a possibility that people might have different experiences of the function/ policy / process/ strategy compared to others.

This initial EIA simply assesses whether different groups of people who use a service are affected by the intended function / policy/ practice / strategy more, less or in a different way than other groups of people. A differential impact occurs when a particular group has been affected differently by this in either a positive or negative/adverse way.

An assessment of whether there is a differential impact will be based on two factors – quantitative monitoring data and qualitative information, including the expert opinion from the EIA assessor who is normally the manager responsible for the delivery as well as someone with a different perspective. This would ideally be one or more service users or someone related to the service. There will be times when involving someone for their technical expertise or someone with specialist knowledge will be appropriate and EIA assessors should consider this. You must assess **each** of the 9 areas separately and consider how your document in section 1 may affect people's human rights.

## 2. ASSESSMENT OF POSSIBLE ADVERSE IMPACT AGAINST ANY MINORITY GROUP

	Could the policy / service / function / other in section 1 have a <b>significant negative impact</b> on equality in relation to each area below?	Response		If YES, please state why and the evidence used in your assessment

### You need to ask yourself:

- Will the policy / practice / service create any **problems** or **barriers** to any community or group? **No**
- Will any group be **excluded** because of this? **No**
- Will there be a negative impact on **community relations**? **No**

If the answer to any of these questions is YES, you must complete a **FULL** Equality Impact Assessment. Contact the Corporate Governance Administrator and refer to the EIA Policy on the intranet.
